

ENG103 Research Writing Techniques

AS2, G5: Survey Development

Lesson Outline

Survey Development Guide – G5

Developing Survey questions

Creating a Google Questionnaire

Survey Development Guide – G5

Developing Survey questions

Before drafting questions, it is necessary to clearly identify the objective of the research and how questions can contribute to achieve the research objective.

For example, if we wanted to undertake research to determine student attitudes towards online learning what are the different dimensions of this enquiry?

What are the questions we could ask related to each dimensions?

Survey Development Guide – G5

Developing Survey questions

For example, we could focus on the following three dimensions:

- 1) questions to determine student attitudes towards the effectiveness of online learning
- 1) questions to determine student attitudes regarding the impact of online learning on their grades
- 1) questions to ascertain if students believe online learning improves their interactions with other students

Survey Development Guide – G5

Developing Survey questions

After determining the different dimensions, we can then formulate questions for each dimension. For example, related to how online learning is an effective mode of teaching the following questions using the Likert scale design can be formulated:

- I can retain more information when taught online.
- When a subject is taught online it is clearer to me.
- I can focus better on what the teacher is saying when taught online.

Likert Scale answers:

Strongly agree

Somewhat agree

Neutral

Somewhat disagree

Strongly disagree

Survey Development Guide – G5

Developing Survey questions

Attitudes related to how online learning affects student grades

Questions:

- Online learning helps me get better grades in my midterm exams.
- Online learning helps me get better grades in my final exams.
- Online learning helps me get better grades in my coursework.

Likert Scale answers:

Strongly agree

Somewhat agree

Neutral

Somewhat disagree

Strongly disagree

Survey Development Guide – G5

Developing Survey questions

Attitudes related to how online effects student social interactions

Questions:

- Online learning helps me communicate better with other students.
- Online learning helps me make friends with other students.
- Online learning helps me with my social life.

Likert Scale answers:

Strongly agree

Somewhat agree

Neutral

Somewhat disagree

Strongly disagree

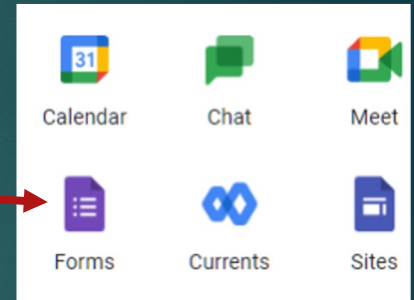

Survey Development Guide – G5

Creating a Google Questionnaire

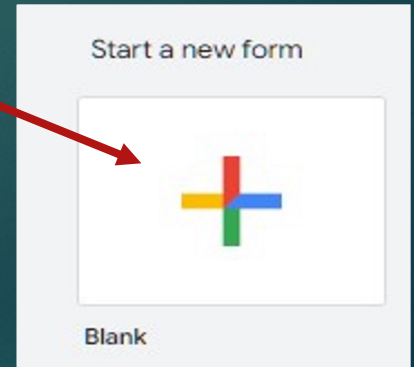

Once you have drafted your questions and answers you can create an online survey using Google Forms.

1) To access Google Forms log into your Google Drive and click on the 9 dots located in the top left-hand corner → 

2) Select Forms

3) Choose the option to start a new form

Survey Development Guide – G5

Creating a Google Questionnaire

4) Add a title here

5) Add a description of your research here

6) Your first question should be used to gain consent from your participant. To add your consent text, click on untitled question and type or paste your consent text

7) The answers to the consent question should be: "I accept" and "I do not accept". To add the answers, click on Option 1 and type or paste "I accept" and then click on Add option to add "I do not accept".

8) Click on required

The screenshot displays the Google Forms interface in the 'Questions' tab. At the top, there are three tabs: 'Questions', 'Responses', and 'Settings'. Below the tabs is a header area with 'Untitled form' and a 'Form description' field. The main content area shows a single question titled 'Untitled Question'. To the right of the question title is a 'Multiple choice' dropdown menu. Below the question title, there are two radio button options: 'Option 1' and 'Add option or add "Other"'. At the bottom right of the question card, there is a 'Required' toggle switch, which is currently turned off. Red arrows from the text on the left point to these specific elements: the title, description, question title, first option, and the required toggle.

Survey Development Guide – G5

Creating a Google Questionnaire

Once complete, your form should be similar to this.

9) You can now move on to your next questions by clicking the + icon here.

The screenshot shows a Google Form titled "A study into student attitudes regarding the effectiveness of online learning". The form includes an introductory paragraph, a consent section, and a multiple-choice question. A red arrow points from the text "Once complete, your form should be similar to this." to the top of the form. Another red arrow points from the text "9) You can now move on to your next questions by clicking the + icon here." to the plus icon in the top right corner of the form.

A study into student attitudes regarding the effectiveness of online learning

This questionnaire is part of a study to gather information about student attitudes towards online learning.

Please read the following and if you want to continue select "I accept", and if you do not want to continue simply close the window and abandon the questionnaire.

The purpose of the research is to gather information about the attitudes of students regarding the effectiveness of online learning.

Your role as a participant will be to provide valuable answers to the questions that will help achieve the research goals. In this regard, you should answer the questions as accurately as possible.

You can withdraw from this research at any time.

Your personal details will not be disclosed at any point, and you will remain anonymous throughout the research. In this regard, your responses will be assigned a random reference identification.

By continuing and selecting "I accept" you agree for your responses to be used for this research project in the manner described above.

☐ I accept

☐ I do not accept

☐ Add option or [add "Other"](#)

Survey Development Guide – G5

Creating a Google Questionnaire

10) You can change the type of questions here, but if you are using the Likert Scale use the Multiple choice option.

11) Remember to select required for all your questions.

The screenshot displays a Google Form with the question "I am able to retain more information when taught online". The question type is set to "Multiple choice", indicated by a red arrow from the text in point 10. The response options are radio buttons with the following labels: "Strongly agree", "Somewhat agree", "Neutral", "Somewhat disagree", "Strongly Disagree", and "Add option or [add 'Other'](#)". Each option has a red 'X' icon to its right. At the bottom right, the "Required" toggle switch is turned on, indicated by a red arrow from the text in point 11. The interface includes a top bar with a menu icon and a right sidebar with various form-building tools.

Creating a Google Questionnaire

12) Once your questions are complete you can preview them by pressing the eye icon.

13) Once you are ready to send your questionnaire to your participants click on send.

The screenshot displays the Google Forms editor interface. At the top, the title 'Untitled form' is visible, along with icons for folder, star, and a status message 'All changes saved in Drive'. To the right are icons for a bell, a palette, an eye (preview), a circular arrow (refresh), and a share icon. A red arrow points from the text 'pressing the eye icon' to the eye icon. Further right is a purple 'Send' button, with a red arrow pointing from the text 'click on send' to it. Below the top bar are tabs for 'Questions', 'Responses', and 'Settings'. The main content area shows a question: 'Online learning helps me with my social life.' with a 'Multiple choice' response type. The question has five radio button options: 'Strongly agree', 'Somewhat agree', 'Neutral', 'Somewhat disagree', and 'Strongly Disagree'. Each option has a small 'X' icon to its right. At the bottom of the question area is a link to 'Add option or add "Other"'. At the very bottom of the form editor are icons for a copy, a trash can, and a 'Required' toggle switch which is currently turned on.
