

Prince Sultan University
College of Computer and Info Sciences / Department of Information Systems
Semester 261 2026-2027
COURSE SYLLABUS

1. **Course number and name:** CYS403: Security Risk Management, Governance and Control
2. **Credits and contact hours:** 3 (3,0,1)
3. **Instructor's or course coordinator's name:** Dr. Yazan Alshboul
 - a. **Scheduled Office Hours:** Sun- Wed 12-1:00 pm
 - b. **Office Location:** B105-2nd F – A14
 - c. **Email:** yalshboul@psu.edu.sa
4. **Text book, title, author, and year**
 - a. **Primary Text:** Security Risk Management, Building an Information Security Risk Management Program from the Ground Up, Evan Wheeler
 - b. **Other References:**
 - Cyber Security Management: A Governance, Risk and Compliance Framework 1st Edition by Peter Trim and Yang-Im Lee, 2014.
 - Information Security Policies and Procedures: A Practitioner's Reference, Second Edition 2nd Edition by Thomas R. Peltier
 - Information Security Policies, Procedures and Standards: A Practitioner's Reference, By Douglas J. Landoll
 - c. **Electronic Materials:** None
 - d. **Learning Management System:** Moodle available at <https://lms.psu.edu.sa>
5. **Specific course information**
 - a. **Brief description of the content of the course (catalog description):**

This course focuses on establishing the balance between business needs and cybersecurity safeguards. It will concentrate on the importance of Risk Management framework and the detailed practical Risk management framework. Besides, implementing and assessing the security policies, as a risk mitigation technique, will be discussed deeply based on the business requirements. In addition, auditing, governance, controls, compliance, and standards will be covered with proper case studies and exercises.
 - b. **Prerequisites or corequisites:** CYS401
 - c. **Indicate whether a required, elective, or selected elective (as per Table 5-1) course in the program:** Required
6. **Specific goals for the course**
 - a. **Specific outcomes of instruction. The student will be able to:**

CLO 1: Identify the issues and concerns indicative to protecting information, systems and users.

CLO 2: Apply the principles of cyber security risk management and a framework of components: identification, protection, detection, response and recovery.

CLO 3: Evaluate the types of policy, how policy is created, how to implement and manage policy, measurement practices, and audit of policy

CLO 4: Apply cyber security protection mechanisms to help safeguard and protect information, systems and users.

CLO 5: Articulate cyber security imperatives to key decision makers and stakeholders in an organization.

CLO 6: Recognize the importance of compliance and training in information security risk management.

- b. Explicitly indicate which of the student outcomes listed in Criterion 3 or any other outcomes are addressed by the course.

Course LOs #	Student Outcomes		
	Computer Science	Software Engineering	Information Systems
1	1	1	1
2	2	2	2
3	5	5	5
4	6	2	6
5	3	3	3
6	4	4	4

7. Brief list of topics to be covered

Week No.	Topics	CLO(s) alignment	Assessments
1	Chapter1: Cybersecurity - Emerging Technologies (Introduction)	CLO1	Quiz1 Major Final Exam
2	Chapter 2: Risky business, Security Risk Management, Governance and Control	CLO1	Quiz1 Major Final Exam
3	Chapter 3: Threat and Vulnerability Management	CLO1	Major Final Exam
4-5	Chapter 4: The Risk Management Lifecycle Chapter 5: Risk Assessment Approach	CLO2, CLO3	Major Final Exam Project
6-7	Chapter 6: Performing A Risk Assessment: A Detailed Plan	CLO2, CLO3, CLO4	Major Final Exam Project
8-9	Chapter 7: Risk Control and Mitigation Chapter 8: Risk Profiling	CLO3, CLO4, CLO5	Quiz2 Final Exam Project
15-16	Chapter 9: Cybersecurity Policies Chapter10: Policies Framework, DRP, BCP Code Chapter 11: Planning for Contingencies	CLO4, CLO5, CLO6	Final Exam Project

17-19	Chapter 12: Cybersecurity Framework: COBIT Chapter 13: Cybersecurity Framework: COBIT Chapter 14: Management of Information Security: Developing the Security Program	CLO5, CLO6	Final Exam Project
2 - 19	Course Project	CLO1-CLO6	

8. Weight of Assessments

Assessment	Assessment Task	Week Due	Proportion of Final Assessment
1	Quiz-I	Week 4 - 5	5%
2	Quiz-II	Week 14	5%
3	Labs+ Assignments+ Attendance	Week1 to Week16	15%
4	Project	Week2 to Week16	15%
5	Major Exam	Week8 (Oct 15 th , 2026)	20%
6	Final Exam	Announced on Edugate	40%

9. Additional Information

Plagiarism and Academic Dishonesty:

“Plagiarism can be defined as unintentionally or deliberately using another person’s writing or ideas as though they are one’s own. Plagiarism includes, but is not limited to, copying another individual’s work and taking credit for it, paraphrasing information from a source without proper documentation, and mixing one’s own words with those of another author without attribution. In addition, buying a paper or project, or downloading a paper from the Internet, and submitting them as your own are also plagiarism. The penalty for academic dishonesty will bring course expulsion and failure, or even suspension” (Academic Integrity and Syllabus Acknowledgement Form).

Attendance Policies:

The University attendance policy will be strictly followed. Students are expected to attend all class sessions and be in class on-time. Missing a class session is a student’s responsibility. Missed classes will not be repeated. A total of 16 absences may lead to denial grade DN. It is the sole responsibility of a student to keep satisfying level of attendance. Otherwise, "DN" grade will be granted automatically during any time in the semester, without any notice. Please refer to the table below for the details. It is the student’s responsibility to periodically check course website/Moodle for course content, projects assignments, updates and notifications.

	No deduction	1 mark	2 marks deduction	3 marks deduction	4 marks deduction	DN
Four Times Weekly	Total of or less than 6 absences	Total of 7 absences	Total of 9 absences	Total of 11 absences	Total of 14 absences	Total of 16 absences

Exam Policies:

If a student misses a major exam due to legitimate and documented reasons, they may apply for a makeup exam. The request must be submitted within 3 working days to the department chairs along with supporting documents. The Department Chair will review the request, and will grant final approval. Makeup exams must be scheduled within 1 week of approval, cover the same material as the original exam, but with different questions to ensure academic integrity. Any excuses submitted after the deadline will only be considered under extraordinary circumstances, and falsified documents will lead to disciplinary action. Generally, the final exam includes all material covered during the semester (comprehensive).

Assignment/Project Policies:

Students are expected to actively participate in class discussion, activities and online Forums. Students are expected to complete the class assignment and submit the answers during the concerned tutorial session. Late assignments are not accepted. It is the student's responsibility to check/test/verify the solution before submission and ensure that all files have been uploaded to the LMS.
