

Prince Sultan University
College of Computer and Info Sciences / Department of Computer Science
Term 261
1st Semester 2026-2027

COURSE SYLLABUS

Mission Statement of the Bachelor of Software Engineering Program(s): Prepare world-class software engineering graduates through an academic environment that promotes professional skills, ethical behavior, life-long learning, research and service to the community

1. **Course number and name:** SE423 – **Software Project Management**
2. **Credits and contact hours:** 3 (3,0,1)
3. **Instructor's or course coordinator's name:** Alhanouf Almutairi
 - a. **Scheduled Office Hours:** From 10:00 to 10:50 (Sunday, Monday and Tuesday) + Wednesday from 12:00 to 12:45.
 - b. **Office Location:** W334
 - c. **Email:** aalmutairi@psu.edu.sa
4. **Text book, title, author, and year**
 - **Primary Text:**
 - Schwalbe, K., "Information Technology Project Management", 9th Edition, Cengage.
 - **Other References:**
 - a. PMBOK GUIDE Seventh Edition.
 - b. Software Project Management by Mandeep Kaur.
 - c. The Complete Software Project Manager: Mastering Technology from Planning to Launch and Beyond.
 - d. Introduction to Software Project Management by Adolfo Villafiorita
 - **Course Website [Optional]:**
 - **Learning Management System:** Moodle available at <https://lms.psu.edu.sa>
5. **Specific course information**
 - a. **Brief description of the content of the course (catalog description):**

This course covers the main knowledge areas of project management (time, cost, quality, scope, risk, human resources, communications, etc.) by focusing on software projects. It also covers project planning, cost estimation, earned-value analysis techniques and scheduling, project management tools, factors influencing productivity and success, productivity metrics, analysis of options, risk management and dynamic adjusting of project plans, planning for change, management of expectations, software contracts and intellectual property, approaches to maintenance and long-term software development, standards in project management, such as ISO10006, ISO12207, along with CMM model will be also discussed. Case studies of real industrial projects will be discussed.

- b. Prerequisites or co-requisites: Junior Level (Third year)
 - c. Indicate whether a required, elective, or selected elective (as per Table 5-1) course in the program: Bachelor of Science in Software Engineering and Bachelor of Science in Computer Science
6. Specific goals for the course
- a. Specific outcomes of instruction. The student will be able to:
 - CLO1:** Describe the motivation for, basic principles of, and terminology of project management.
 - CLO2:** **Develop** feasible project plans applying appropriate concepts in software estimation, resourcing, scheduling and software risk management.
 - CLO3:** **Demonstrate** appropriate communication skills and technologies in project management settings
 - CLO4:** **Apply** basic project management principles in order to achieve project success
 - CLO5:** **Apply** a team-based collaborative approach to software project management and enhance the probability of project success
 - CLO6:** **Apply** project control techniques that help find solutions to problems fast - enabling you to bring your project back on track as quickly and cheaply as possible
 - b. Explicitly indicate which of the student outcomes listed in Criterion 3 or any other outcomes are addressed by the course.

Course LOs #	Student Outcomes		
	Computer Science	Information Systems	Software Engineering
1	1		1
2	2		2
3	6		6
4	5		7
5	2		5
6	3		3

Brief list of topics to be covered

Week No.	Topics	CLO(s) alignment	Assessments
1-3	Introduction to Project Management	1 and 2	
4	The Project Management and Software Engineering Process context	1 and 2	
5	Team	1,2 and 3	
6	Development Approach	1 and 2	
7 & 8	Risk Management	1,2, and 3	Midterm [week 8] Project deliverable 1
9 & 10	Planning(estimation, Scheduling, and Tracking)	1,2,3 and 6	Project Deliverable2
11	Quality	1,2 and 6	
12&13	Stakeholders	3 and 4	Project deliverable 3[week 13]
14	Change Management	1 and 3	Project deliverable 4
15	Project	1 and 4	Project presentation

8. Weight of Assessments

Assessment	Assessment Task	Week Due	Proportion of Final Assessment
1	Midterm	Week 8 (14/10/2026)	15%
2	Presentations	Throughout semester	5%
3	Assignment, Class Practice and attendance	Throughout semester	20%
4	Project	Week 15	20%
5	Final exam	End of Semester	40%

9. Additional Information

Plagiarism and Academic Dishonesty:

“Plagiarism can be defined as unintentionally or deliberately using another person’s writing or ideas as though they are one’s own. Plagiarism includes, but is not limited to, copying another individual’s work and taking credit for it, paraphrasing information from a source without proper documentation, and mixing one’s own words with those of another author without attribution. In addition, buying a paper or project, or downloading a paper from the Internet, and submitting them as your own is also plagiarism. The penalty for academic dishonesty will bring course expulsion and failure, or even suspension” (Academic Integrity and Syllabus Acknowledgement Form).

Attendance Policies:

The University attendance policy will be strictly followed.

Students that are regularly absent will be given DN warnings. (See DN Warning Flyer).

1 st warning	6 or more
2 nd warning	11 or more
3 rd warning	15 or more

For further detail on DN Please see <http://www.psu.edu.sa/StudentAffairs.aspx>

Students are expected to attend all class sessions and be in class on-time. Attendance is taken during the first few minutes of the class. Missing a class session is a student’s responsibility. Missed classes will not be repeated. It is the student’s responsibility to periodically check course website for course content, projects assignments, updates and notifications.

Exam Policies:

Major exams are unified among all sections (if applicable) and their dates are announced from the onset of the semester. Arrangements with the Registration Office and the department are made before the beginning of the semester so that all sections will take the same exam at the same time. It is not possible to reschedule any major exam. **If any student missed an assessment, there is no makeup exam.** Generally, the final exam includes all material covered during the semester (comprehensive).

Assignment/Project Policies:

Students are expected to actively participate in class discussions and activities. Students are expected to solve the assignment and submit the solution during the concerned tutorial session. **Late assignments are not accepted (if there is valid excuse still it will be with 20% deduction per day).** It is the student’s responsibility to check/test/verify/debug the code before submission. It is the student’s responsibility to verify that all files have been uploaded to the LMS. After an assignment/project has been graded, re-submission with the intention to improve an assignment's scores will not be allowed.
